

Dear Commissioners of the FCC,

I am writing to ask you to retain the present rules with respect to media ownership. Deregulation will result huge corporate generic media outlets that dumb down the information available to us all. Remember Enron? Enron is indeed the poster child of deregulation.

As an independent writer/photographer, I rely on being able to market my work to a wide variety of media outlets. I am worried that deregulation of our mass media will negatively impact the way that I make my living.

Yours truly,

Susan Fay
